

As Seen in the November Issue of Iron Work Magazine

If you're planning a long ride, consider encasing your bike in armor. Bike Brite Moto-Mask ON is a translucent spray-on temporary barrier for painted metal and chrome. Grime can't penetrate, so you just wipe everything away after the ride with Bike Brite Moto-Mask OFF. Helps prevent light road abrasion, too. Contact Bike Brite, 800-927-4833, [www.bikebrite.com](http://www.bikebrite.com), Reader Service No. 97.

## IW Buyer's GUIDE

**Bike Brite Moto-Mask Windscreen Rain Coating** is a wipe-on coating that provides water-sheeting action so raindrops virtually disappear for a clear view in rain and mist. The patent-pending, long-lasting

formula is safe on Plexiglas, acrylic, polycarbonate, and Lexan. It coats mirrors and helmet visors, too. Contact 800-927-4833, [www.bikebrite.com](http://www.bikebrite.com), Reader Service No. 103.
